

## **New in 2025: Pricing Bundle for Testing Administrations – Save up to \$475!**

The Joint Commission on National Dental Examinations (JCNDE) is pleased to announce a 2025 pricing bundle package for dental examinations to help reduce examination costs for candidates.

Starting January 1, 2025, candidates applying to take either the Integrated National Board Dental Examination (INBDE) or the Dental Licensure Objective Structured Clinical Examination (DLOSCE) can bundle these two examinations together **at a substantially discounted rate.**

Candidates can now purchase administrations of the INBDE and DLOSCE for \$1,080. **This is a savings of \$475** compared to the cost of purchasing these administrations separately. Candidates who purchase both examinations separately will automatically receive a refund of \$475 within five business days after both applications are approved and processed. This refund will be applied to the candidate's DLOSCE application, and no action is needed from the candidate to receive this refund. If candidates have already submitted applications for both examinations for administrations occurring in 2025, a corresponding refund of \$475 will be retroactively applied after both administrations have occurred.

Purchasing a bundle is not required. Candidates may still purchase each administration individually.

The DLOSCE is accepted in eight states as fulfilling all or part of the written examination requirements for licensure. Please visit [ADA.org/DLOSCE](https://ada.org/DLOSCE) for a list of licensing jurisdictions that accept the DLOSCE.
